

A Conversation with Adam Bry:  
Olin '08, CEO and co-founder of Skydio, Inc.  
**Current status and future directions of  
Autonomous Drones**

*"Fresh pepper?"*

Join us for an informal conversation with Adam.

**From Smithsonian Magazine: "Eight Innovators to Watch in 2017"**

**Bry, who previously helped start Google's Project Wing drone delivery system, is focused on building a drone that can use artificial intelligence and computer vision through cameras to make decisions as it flies.**

**"Our mission is to make the magic and power of flight a part of everyday life through trusted and useful flying robots," says Bry, who, in 2016, was named one of the top 35 Innovators Under 35 by *MIT Technology Review*. "In 2017, we will launch our first product that uses deep learning and artificial intelligence to deliver on the promise of the autonomous flying camera."**
